

Application to Form a New Project Group

SUMMARY OF PROPOSED PROJECT

Please provide an abstract summarizing the proposed project. Discuss why the proposed project is important and why the project should receive an EWH endorsement

PROJECTED IMPACT OF PROPOSED PROJECT

What are existing alternatives to the project proposed? What are the advantages and limitations of these alternatives?

Where is the proposed project intended to be implemented? What are the needs that the proposed design must satisfy? Discuss the population that implementation of the design will affect.

PROPOSED DESIGN

Propose some preliminary ideas for a potential designs. How will the project be designed to be affordable and easy to assemble? List potential affordable and accessible materials.

Propose a 10-week timeline for the semester, setting goals for each week.

Week 1:	Week 6:
Week 2:	Week 7:
Week 3:	Week 8:
Week 4:	Week 9:
Week 5:	Week 10:

Provide a rough estimate of funds that may be requested during the semester (for materials, food at meetings, etc.). Additionally, estimate size of design team needed.

OBJECTIVE

What is the final goal of the project? Common goals are to build a prototype, to develop a manuscript or to prepare a publication.
